***Reasons for Allowance***

Claims 5-7 are allowed

The following is an examiner's statement of reasons for allowance:

The most relevant art of record, Otusbo (US 6,497,693 B1) does not disclose or fairly suggest skin contactable sheets *exclusively attached* to fixed surface areas at opposite longitudinal ends of a skin contactable surface of a disposable undergarment such that there is a free surface area of the skin contactable sheets that is not fixed to the undergarment. Instead, the suspended top surface layer of Otusbo is attached along the sides of the undergarment in addition to the longitudinal ends.

Another relevant reference, Tanzer *et al.* (US 5,947,947 A) substantially teaches the claimed invention, except the suspended sheets (44) are not substantially liquid impervious. Making the suspended sheets (44) of Tanzer *et al.* impervious would destroy the functionality of that device which is intended to gradually distribute liquid to the main diaper structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
